-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

## **DETAILED ACTION**

### ***Election/Restrictions***

Claims 9-16 remain withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim.

### ***Response to Amendment***

1. The declaration filed on 23 January 2007 under 37 CFR 1.131 has been considered but is ineffective to overcome the Pfenniger et al (USP 6,988,777) reference. A 37 CFR 1.131 affidavit or declaration **must contain an allegation that the acts relied upon to establish the date prior to the reference or activity were carried out in this country or in a NAFTA country or WTO member country.** See MPEP 715.07(c). Upon the filing of a new declaration satisfying the above-noted deficiency, the rejection based on Pfenniger et al will be withdrawn (as the remaining requirements of a "131" declaration have been deemed to have been met).

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-8 are rejected under 35 U.S.C. 102(e) as being anticipated by Pfenniger et al (USP 6,988,777). The patent to Pfenniger discloses, in the embodiment

Art Unit: 1744

of figures 12a and 12b (column 7, lines 41-58) a head for attachment by sonic welding to a toothbrush which head includes a rigid outer perimeter portion (22) of polypropylene (see column 2, lines 51-54) as well as a tuft field (2a) of a flexible elastomeric (see also column 2, lines 54-56) material having a hardness of less than 70A (column 2, lines 36-39) and which field includes at least one aperture receiving a tuft with the tufts ends melted to either form a bristle melt (11).

### ***Response to Arguments***

Applicant's arguments filed 23 January 2007 have been reviewed. They rely on the "131" declaration submitted to swear behind the date of a 102(e) reference. The declaration, as far as the evidence of conception prior to the critical date, etc. has been deemed persuasive; however, declaration's lack of a statement of WHERE the activity occurred makes it defective and as such cannot at this time overcome the rejection.

### ***Conclusion***

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 1744

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

**Conclusion**

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patent to Bouchiere is pertinent to the welding and the others to flexible bristles fields.
